

WHAT IF YOUR FIRST TRAVEL WAS FOR A CHANGE?

ILM School Visit

"to teach and be taught"

What if your First International Travel was for a Change? Can you imagine just some sacrifice to your holidays can change someone's life? Imagine someone looking at you as their role model and wanting to be like you in their future. Isn't that the biggest blessing you will get in your life?

International Logos Ministries founded a school in the needy village of Bangladesh and now ILM has launched a new project called *"ILM School Visit"* with a theme: *'to teach and be taught.'* The purpose of this project is to bring *International Students/people to ILM Primary School to implement their learning in real life & learn about the true struggle for education in third-world nations.* Furthermore, this program encourages International Students/people to teach ILM-learners new concepts in order to broaden their minds. There are now 85 students in the school and the numbers are increasing day by day.

This project was successfully conducted by sending three Bachelors Students from Nepal: *Samir Tamang, Nisha Tamang & Sandip Sunar (ILM Media Director)* for a week in the first phase where they conducted various programs for the children encouraging them to visit the school every day and study hard.
